## Victoria Falls and Botswana

10 days/9 nights

Incorporating:

2 nights Victoria Falls, 2 nights Chobe, 2 nights Savute, 3 nights Moremi Okavango Delta

### Victoria Falls, Zimbabwe Day 1-2 (B&B)

Clients will be met at Victoria Falls airport and transferred to Victoria Falls Safari Lodge or Ilala Lodge. Victoria Falls Safari lodge overlooks a private water hole and has a great restaurant and bar as well as a swimming pool for cooling off after exploring Victoria Falls. Mopane/Acacia clients will be transferred to Ilala Lodge in the heart of Victoria Falls town within easy walking distance of the Falls. Clients can visit one of the largest waterfalls in the world. Tumbling cascades of water that throw moisture far into the air ensure a cool walk through the bush and breathtaking views of the Falls. Victoria Falls is also home to a myriad of activities for the energetic traveler or for those who just want to relax, including bungee jumping, white water rafting, boat cruises and African market shopping. (All activities at additional cost)

### Chobe National Park Day 3-4 (FI)

In the morning on Day 3 you will be driven from Victoria Falls Safari Lodge to the Botswana Kazungula border a journey that takes approximately 1 hour. Here you will be met by the SGS Africa team to begin your mobile safari. You will meet your guide who will then drive you into Chobe National Park in your private 4x4 open vehicle. Enjoy a cold drink and a light packed lunch on the way. (At Mopane and Acacia Levels all the camp staff travel with guests in game viewing vehicle which pulls a trailer with all camping equipment and luggage) You will arrive in camp in the afternoon where you can either relax and enjoy your new surroundings or proceed on a short game drive and a sundowner near the Chobe river. On Day 4 there will be an early wake up call followed by a light continental breakfast before you leave in a morning game drive to track animals large and small. You will return to camp, depending on what you find, for a light lunch/brunch before departing for Kasane for your 3 hour Chobe River Cruise before returning to camp for a hot bush shower and a meal under the stars in the evening. Along the Chobe riverfront the terrain is that of a typical riverine ecosystem. Away from the river we have mixed miombo and broadleaved woodland that harbours rich avifauna. Northern Chobe is famous for its huge elephant & buffalo herds, puku, kudu, Chobe bushbuck and hippo as well as diverse bird life. One could also hope to see: lion, leopard, wild dog, giraffe, waterbuck, zebra, impala. .
